

TAKE ME TO SCHOOL

Take me to school is the sponsorship project for our children

At the moment the money to support them comes from our family and sometimes from donations and help from the volunteers who come to our centre from time to time. The problem is that it is not always enough. The work is not always guaranteed, so neither the money is..

With this project we want each of these children to be sponsored by someone, helping them with school fees and materials, food, clothes and shoes.

You are free to choose the amount, but we kindly request a minimum of \$5 USD

To sponsor a child you just need to read a little about our children and choose the one you want to sponsor.

After choosing the child you want to sponsor send us an email and we will contact you to take care of all the details.

How does it work?

From the moment you enter the sponsorship program you will be kept up to date with everything that is happening with your child. We will send you schoolwork, grades, photos and videos proving that the child has what he/she needs. We can exchange emails, video calls and do whatever else is agreed upon by everyone.
